CONTRACTING HIGHLIGHTS / RELEVANT PAST PERFORMANCE**Azusa Medical Clinic – Okinawa, Japan**

Provided healthcare environmental cleaning and facility support services for A+ Medical Clinic in support of medical disability examination operations associated with federal healthcare programs. Coordinated subcontractor service requirements to ensure compliance with healthcare sanitation standards, infection prevention protocols, and facility cleanliness expectations. Managed service scheduling, sanitation procedures, waste removal coordination, and quality control inspections to maintain a safe, clean, and patient-ready clinical environment. Served as liaison regarding operational and contractual service coordination between clinic stakeholders and prime contractor representatives.

DaVita Inc.– San Diego, CA, USA

Supervised janitorial and environmental cleaning operations for DaVita Inc. kidney dialysis centers, ensuring healthcare-grade sanitation, infection-control cleaning, and regulatory compliance across patient treatment areas, administrative offices, restrooms, and common spaces. Managed subcontractor performance, custodial staff training, quality assurance inspections, supply inventory, waste removal procedures, and financial documentation. Maintained orderly, safe, and efficient facility operations through implementation of standardized cleaning protocols and preventative maintenance procedures designed for high-traffic healthcare environments.

HelloFresh– San Diego, CA, USA

Supported facility operations and subcontracted janitorial services for HelloFresh distribution center locations, including housekeeping, sanitation, maintenance support, and facility cleanliness management. Implemented cleaning and inspection procedures to ensure sanitary working conditions, operational efficiency, and compliance with company cleanliness standards. Oversaw waste removal, floor care, high-touch surface sanitation, supply usage monitoring, and quality control processes to maintain safe and organized production and warehouse environments. Developed and adapted inspection methods and cleaning procedures to support cost-effective facility maintenance and continuous operational readiness.
